

Buddy & Barney

**BOOKS &
BOOKS-PLUS**

★ OUR STORY ★

Buddy & Barney is an independent family run publishing business based in the beautiful city of Bath. We are passionate about books and we aim to create fun yet educational books and books plus titles for little ones around the world. It helps having two energetic boys under the age of six as our chief product testers!

We design and create high quality children's books and books with toys (books-plus). Our ethos is all about creating products that are FUN but which encourage active learning through play. We make books that we love and more importantly, that our boys love. If it doesn't get the nod from our little chief product testers, it doesn't get produced.

OUR AIM

We aim to create fun and educational books that are designed to nurture and enhance children's development in the early years and onwards. We try to make learning fun and engaging with our innovative range of products, from pre-school onwards, including STEM products.

SAFETY TESTING

The serious stuff! Whilst we love designing and creating our books, the safety and quality of the products we make is paramount. We ensure that our products signify integrity, quality and of course fun! At every stage of development, our products endure rigorous, industry standard testing, as well as intensive play testing (thanks to the boys Buddy and Barney).

We implement a scrupulous and expansive safety policy and procedure of each one of our products. As an International company supplying clients all around the world, we are fully compliant with the current EU Toy Safety Directive, as well as ASTM and CPSIA for our buddies in North America.
