Written by Simon Couchman

Let's make time.

We all learn how to tell the time early on in our lives, but it can take a very long time before we realise how to spend it wisely.

This book not only teaches children how to tell the time, but it also tells the story of a little boy and his canine friend, and how they spend their time to make some positive changes to improve the local environment for themselves and others. The paper engineered clock on the cover has movable hands so the reader can copy the times shown in each scene within the book and also on the fold out sheet.

Features

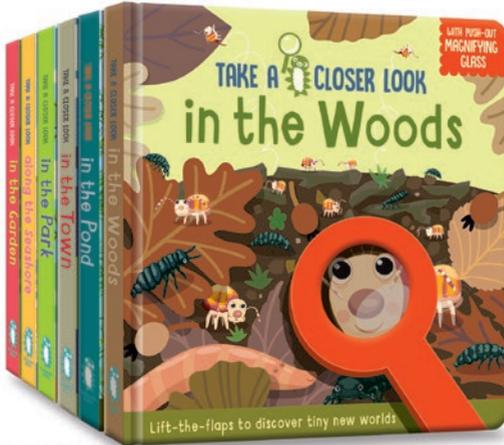

- Hard back case cover with integrated
- play clock with no plastic parts.
- 32 pp text plus foldout page
- 280 mm high x 210 mm wide.
- 11 mm spine width.
- Spot gloss varnish on matt laminated cover.

Sample spread.

Fold out page.

TAKE A CLOSER LOOK

Discover a world that is bustling with strange looking 'minibeasts'.

Inspiring young minds to engage with the natural world.

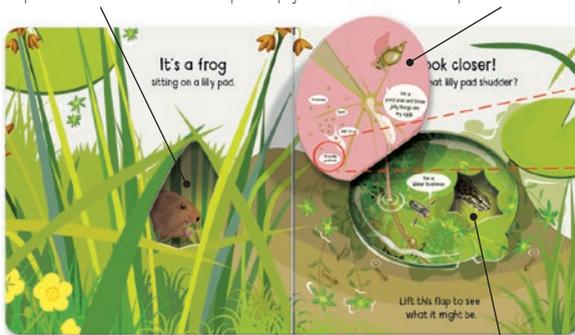

Thousands upon thousands of tiny creatures go about their daily lives whilst being largely ignored by most of us, yet they are nearly everywhere: In the town, in the country, even living with us in our homes. These books with their push-out lenticular magnifying glass, will introduce curious children to this fascinating, easily accessible, miniature world. All they have to do is take a closer look.

Example spread from In the Pond.

Peep hole shows creature encountered on previous page.

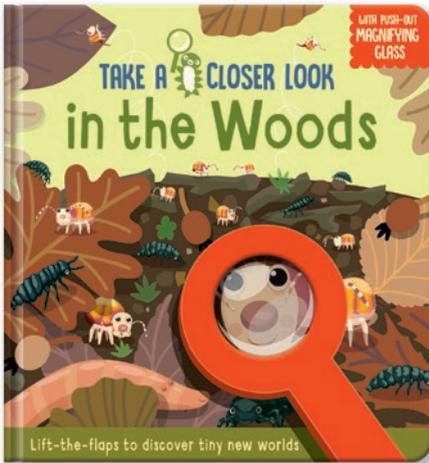

Lift the flap to discover a new smaller creatures.

Up to **3x** apparent magnification

Using the press-out magnifying glass you can see what the tiny creatures in the book are saying to each other.

Intriguing peep hole partially reveals the next encounter on the next page

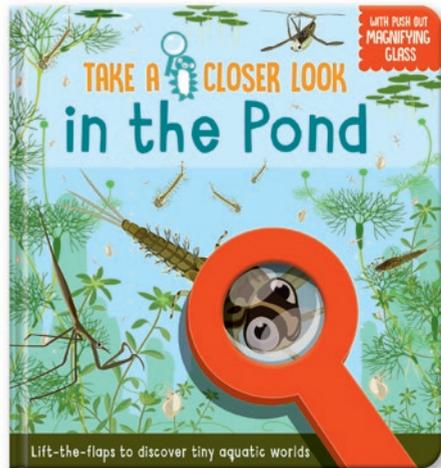

Inside this book there are things to spot using the press-out magnifying glass. Take a page-by-page journey, down into the micro world beneath our feet. From a warty toad under a log, to swarms of minute springtails somersaulting amongst the particles of leaf litter.

The thin magnifying glass is stored within the front cover. Pull open the tab to release it.

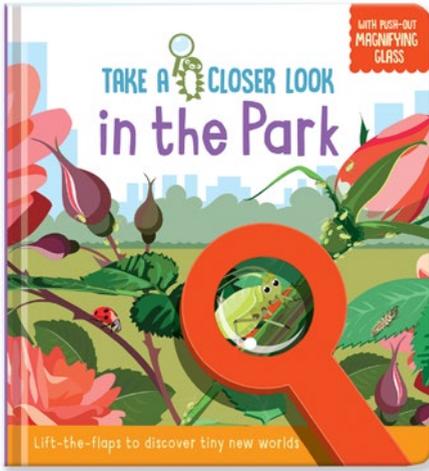

Take a journey under the surface of a freshwater pond. Lift curtains of weed and look under stones to reveal ever smaller aquatic 'mini-beasts'. Use the magnifying glass to see what they might be saying to each other. Can you see how many waterboatman are hiding on a page.

Features

- Hard back, board book
- 9 page spreads with lift-the-flaps
- and peep through features
- Push out magnifying glass
- 165 mm high x 160 mm wide.
- 11 mm spine width.
- Spot gloss varnish on matt laminated cover.

TAKE A CLOSER LOOK

NEW FOR 2023

Next time you are walking through your local town park, take a closer look at the plants and trees. What's that hiding under that leaf? and what are those tiny things clustering around the rose buds? This interactive book will help young nature detectives to identify urban mini beasts.

This book takes the reader on an imagined trip to the seaside. Discover the tiny creatures lurking in the sand, the tide line, and the rockpools. Turn over the layers of salty seaweed and see how much life dwells in this ever-changing, natural environment.

Shipper/Display box

We can provide various display unit options for large orders if required.

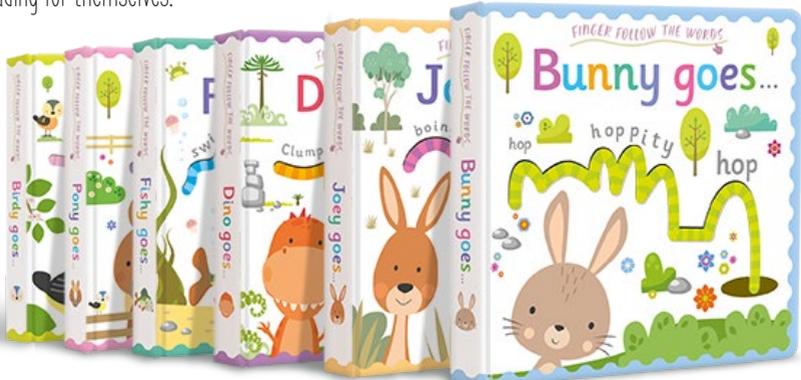

FINGER FOLLOW THE WORDS

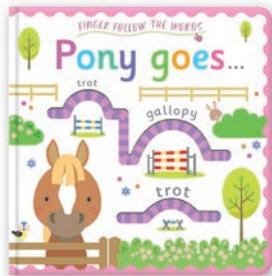

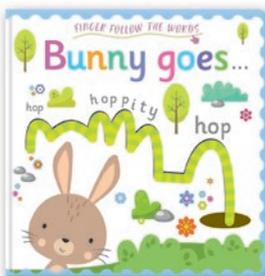

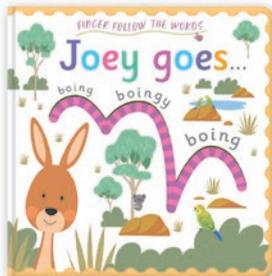

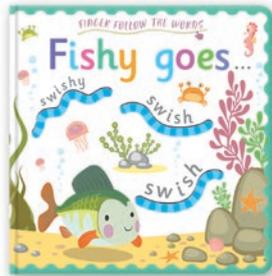

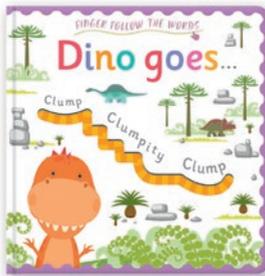

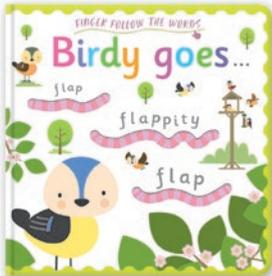

Trace the embedded word trail in each scene to find out where the cute characters go. Children will love calling out the words as their finger passes under them, guided by the groove cut onto page.

Encouraging pre-emerging readers to take their first steps towards word recognition and reading for themselves.
