Just when he has resigned himself to being the target of criticism from his friend's gang, who consider him a freak, Sonia takes him to a new place in town, a pub where people "like him" go. Night after night he goes to the pub and dances until the early hours of the morning, fascinated by the dark atmosphere, the music... and by Sebastian, an attractive and enigmatic guy who runs the place together with his two friends. But as Leo discovers more about Cap de Sal and the people who frequent the place, everything seems to indicate that this place has a suspicious relationship with Marina, the famous girl who disappeared earlier this summer without a trace.

**Perfect for readers of adventure books with a twist. We revisit history but from a different angle, a different parallel universe.**

At the end of the 18th century, the inhabitants of Haiti decide not to give in to the conquering enemy and use their knowledge of voodoo to ensure that the death of their people has not been in vain. Thus was born a brutal zombie army commanded by powerful sorcerers. Three centuries later, the armies of the Vatican are called on a secret mission by Pope Fidel II. The captain of this mission, Augusto Vidoq, will gradually understand the implications of the pontiff's mission as, on his journey to Manu, a small island lost in the ocean, he must face zombie attacks and the wiles of the dreaded bokor, the witchdoctors who practice voodoo. The struggle between the forces of good and evil is not as clear as Augusto thought. And it is not only humans who will take sides in the battle: the most powerful loas, revered voodoo spirits, inhabit the world of humans, and the island of Manu is the heart of their earthly kingdom.

## Alone at the top

**A great, mind blowing thriller that contains all the necessary elements to hook you from the very beginning**

**Perfect for readers that enjoy crazy theories as they read, that build their own parallel story as the one in the book unfolds.**

A man wakes up in the room of a house that is clearly not meant to be a home. He doesn't remember a single thing: neither who he is, nor how he got there. Suddenly he finds himself surrounded by a group of colorful subjects who are trying to carry out a mission that seems, if not illegal, potentially dangerous. He decides that he has to be careful, because, try as he might, he cannot access his memories and cannot tell if he is the boss, the prisoner, or just one of the members of such a peculiar gang.

As time goes by, the puzzle becomes more complicated to the point of madness. Our protagonist will end up discovering the mysterious organization Alone at the Top, the one apparently responsible for his amnesia and the circumstance in which he now finds himself.

From that moment on, he will begin to face increasingly surreal and desperate situations that will lead him to ask himself a question that will plague him with every step he takes, the only question that really matters: "Is this real?"

A young ferocious man, Jarràh, longs to undertake a journey and meet all the beasts that inhabit the world. Before leaving the city of Port Prim where he has grown up, however, he is forced to accept a truth he has long ignored: upon his birth, he was given the power of Chilamis, the goddess of death.

Nin, witch and the ancient goddess of life, will be in charge of guiding Jarràh through a kind of fantastic silk route where traders, pilgrims, criminals and beings of all kinds will come up against him. But history is not always all in the hands of ordinary people, and there are ears everywhere: the empires of Ferosia and Solterra, increasingly at odds, have learned that the heir of Chilamis is among the living, and now, emperors and kings will not stop until Jarràh's gift has served their purposes.

In the course of such a fantastic journey, Jarràh will become an adult and learn that judging life and death is something that goes far beyond the domain of men or justice.

*"An exciting book that takes us to an enchanted Galicia where we will want to stay to live adventures, to know more of its legends, to believe in magic. With the help of his friend Tania, he must face the mystery of his origin and enter the Blurry World, whose inhabitants threaten the apparent tranquility of Arbientes, a small Galician village that hides more secrets than its inhabitants imagine. When both dimensions begin to collide, closing the portal that separates them will be in the hands of the mysterious characters that watch over this strange universe.
