ДРЕВНИЙ ЕГИПЕТ

НИЛ — КОРМИЛЕЦ

«Есть Нил — есть Египет; нет Нила — нет Египта» — могли похвастаться жители этой реки. Благодаря плодородным берегам древнеегипетской цивилизации. Недаром знаменитый греческий историк Плиний назвал Египет **«ДАРЯЩИМ НИЛОМ»**.

Нил прорезает с юга на север огромную пустыню Сахару. Ширина на узкой — шириной не больше 15 километров — скачком с обеих сторон пустыни, полосе плодородной земли вдоль берегов дельты, в Утасеиваетел до н. э. и сформировался Египет.

Для земледелия нужны орошение и удобрение почвы. И Нил обе эти вещи делал за людей. Каждый год в результате дождей, который обильно проливался далеко на юге, в глубинах Африки, в море начинались разливы рек. Паводок напирал на землю водой на долгие месяцы вперед. Когда же вода отступила и Нил возвращался к своим берегам, он оставлял египтянам еще один бесценный подарок — ил, отличное удобрение для полей.

Нил сформировал и древнеегипетский календарь. Год делился на сезоны реки — с середины июля, и делился на три сезона, по четыре месяца каждый: время половодья, время засухи, время дождей. **НИЛА** и **ЕГИПЕТА** — греческое название. Египетские названия Нила — **ХАПИ** или **ИТЕРУ** (река).

Свою страну египтяне называли по-разному, но чаще всего — **Та-Кенет** — **«ЧЕРНАЯ ЗЕМЛЯ»** (плодородная, цветная почва) в противоположность «Красной земле» — безжизненной, скалистой пустыне.

Нил не только кормил египтян, но также оживлял и снабжал египтян. На полях выращивали пшеницу, которую египтяне собирали **ПАПИРУС** — растение, из которого делали папирус — материал для всего Средиземноморья. Стебли папируса веками использовались для плетения корзин, которые плетили египтяне друг на друга, крепко держали и в засушенном. Потом плетили корзины, в которые складывали зерно (и не только зерно, а еще и фрукты, овощи, рыбу и многое другое). Если бы не папирус, не наш бы папирус. Мы писали бы не только египтянам, но даже грекам и римлянам. А еще Нил соединялся с Атлантическим океаном через длинную реку на Земле.

WE LIVE IN ANCIENT GREECE

By Andrey Dubrovsky

Drawings by Victoria Stebleva

Isn't it amazing that Ancient Greece managed to influence the whole world so powerfully! Democracy, theater, the Olympic Games, philosophy, astronomy, history and mathematics – all of this comes from Ancient Greece, or Hellas, as the Greeks themselves called their country. This is why Greece is called «the cradle of Western civilization».

While other ancient civilizations boasted of the size of their territory and their innumerable armies, the Greeks created their own art, science, sports and politics, and the whole world still uses many of their ideas and inventions.

ЭЛЛИНИЗМ: ОТ ЕГИПТА ДО ИНДИИ

Понятие эллинизма возникло не случайно. Оно связано с именем грека Эллиса, сына Ионии, который в V в. до н.э. был основателем школы философов, которая называлась «эллинская школа».

В то время в Греции и в странах, которые она завоевывала, началось активное распространение греческой культуры. Это явление и называли эллинизмом.

Самые известные эллинистические города были в Египте (Александрия), в Сирии (Антиохия), в Персии (Селевкия), в Индии (Патна). В этих городах греческая культура смешивалась с местной.

В Александрии в III в. до н.э. был основан самый крупный в то время библиотечный комплекс. В нем хранились книги на греческом, египетском, персидском и других языках. Библиотека была открыта для всех желающих.

The detailed pictures explain how people used to live in the past, what they were dressed like and what they did. Each page has hidden objects to find. When you have discovered them all you can read about them in the margins.
